Product Specification

Kiwifruit Juice Concentrate 65 Brix

Description:

The juice of fully mature and sound Kiwifruit is processed using both enzymes and fining agents to produce a clear Kiwifruit juice which is then evaporated under vacuum to a syrupy fruit juice concentrate.

Color:

Amber to brown:

Ingredient Statement:

Concentrated Kiwifruit Juice

Composition:

65 Brix average, standardized to 20° C

Break system:

Achieving low temperatures to accommodate enzyme activity.

pH:

Average: 3.4

Acidity:

1.0 % as malic acid

Ascorbic Acid:

Approximately 250 mg/100ml

Petric Substances:

Usually absent, but may contain traces.

Reconstituting:

1 part Kiwifruit Juice Concentrate plus 4.25 parts water yields 5.25 parts 15.4 Brix Kiwifruit Juice.
